Description of Current Site Waste Condition: (what is the current physical state of the site? what activities have been performed?) These waste sites did not require remediation and were previously reclassified as "no action" under interim action decisions.									
Basis for Reclassification: (how does the site meet the reclassification status?) The selected remedy for these waste sites in the Record of Decision, Hanford 100 Area Superfund Site, 100-DR-1, 100-DR-2, 100-HR-1, 100-HR-2 and 100-HR-3 Operable Units is no action. These waste sites meet the criteria for unrestricted land use. Project Manager Comments:
